

## Expert witness services

OAC Actuaries and Consultants is a professional services firm that provides a wide range of services to the financial services industry and associated businesses. OAC was established in 1994 and has become a leading supplier of expert advice and services within its markets. These services draw upon the vast experience and knowledge of its employed and qualified Actuarial, Accountancy and Compliance staff.

Our expert witness services cover a wide range of areas including Employment Law, Family Law, Personal and Commercial Litigation, as well as disciplinary proceedings and matters relating to Financial Services Regulation, as controlled by the Financial Services Authority ("FSA"). We are acknowledged experts in the identification of an appropriate approach to, and the calculation of, financial loss and redress or compensation.

**OAC has provided professional assistance to more than half of the top 20 firms of Solicitors in London and many provincial firms both large and small.**

Many of the matters which proceed to legal or disciplinary proceedings, or referrals to an Ombudsman service or alternative dispute resolution service, are aided by the input of an Expert and a proportion will require a formal Expert Witness Report. OAC believes that in addition to providing clear impartial analysis in written reports, it is also important that experts have the ability to explain their reasoning orally. Our experts are familiar with the rigours of giving evidence in court, or before a tribunal, when required.

In every situation we use our experience and expertise to help clients to understand and quantify the issues and, where relevant, can suggest what may be needed to answer questions and concerns, or to assess the prospects of success in litigation. We have a strong track record of innovation in developing approaches and arguments, and have the resources to carry out large as well as small investigations.
